# THE TABLE

## Aquidneck Island's First Food & Community Hub

Spanning nearly 2,700 square feet, The Table will bring together a vibrant marketplace, children's learning center, wellness programming, and event space—centrally located on the border of Middletown and Newport. Local farmers, fishers and makers will have stable, year-round sales channels to support their small businesses. Families will have a place to bring their children to learn about food in a way that is joyful, hands-on, and free of stigma. Neighbors will gather for wellness workshops, cultural food programming, and connection over a shared meal.
